DATA SECURITY AS A SERVICE

The Problem

In today's evolving cyber threat landscape, safeguarding data is more critical than ever. However, implementing and maintaining robust data security measures can overwhelm internal resources and require specialised expertise. Data Security as a Service (DSaaS) offers a solution that mitigates risks, reduces upfront costs, and leverages expert knowledge in data security.

The Solution

DSaaS provides a comprehensive suite of outsourced data security services. From threat detection to compliance adherence, this solution helps organisations protect their data and minimise risks while benefiting from advanced data security technology and techniques.

How HANDD can help

HANDD Business Solutions (HANDD) recognise the vital role of data security in protecting your business assets. Our DSaaS solution is tailored to address diverse security needs, offering:

- **Data Threat Detection and Response**: Minimise the impact of security incidents through advanced algorithms and expert insights.
- **Compliance-Focused Security Monitoring**: Mitigate risks of non-compliance by understanding your data surface and security posture.
- **Data Endpoint Security**: Protect data across devices, endpoints, and services, enhancing your resilience against insider threats.

HANDD deliver DSaaS through the following solution areas:

- Data Encryption
- Data Loss Prevention
- Data Access Control
- Data Security Monitoring & Incident Response
- Data Compliance & Governance
- Data Discovery & Identification
- Data & Identity Hygiene
- Data Remediation & Management

Key Features and Benefits:

- Centrally managed secure data transfer platform
- Achieve compliance effortlessly
- Secure ad-hoc file transfers
- Scalable and resilient for future expansion
- Full audit trail with comprehensive reporting
- Policy-based security for B2B and third-party transfers
- Integrates with existing business systems to streamline workflows

Why Choose HANDD?

Working with HANDD reduces upfront costs with scalable, expert-driven security solutions that align with your business objectives. As a HANDD customer, you benefit from flexible resources, continuous monitoring, and peace of mind, all while meeting compliance and security goals.

HANDD offers flexible, subscription-based packages that scale with your business and evolving security needs. To discuss your requirement, get in touch at info@handd.com.my
