

## DATA SECURITY CONSULTANCY

### The Problem

Threats to an organisations data are constantly increasing and regulatory requirements continue to become more stringent, organisations face continual pressure to secure their data. Without a comprehensive data security policy, they risk exposure to breaches, fines, and operational disruptions.

### The Solution

The Data Security Consultancy service from HANDD Business Solutions (HANDD) helps your organisation develop and implement a strong data security policy. HANDD's experts guide you in identifying vulnerabilities, establishing protocols, and creating a resilient security posture that protects against threats and meets regulatory demands.

### How does HANDD's Data Security Consultancy Service work?

Our Data Security Consultancy Services include:

- A detailed report highlighting security vulnerabilities and risk areas.
- A customised data security policy covering protection, access control, and compliance.
- A prioritised plan to address risks and strengthen your security posture.
- A compliance alignment report ensures your practices meet regulatory standards.
- A ready-to-implement incident response plan for data breaches or security incidents.
- Customisable training modules for staff on security best practices.

### Key Features and Benefits:

- **In-depth security posture assessment**
- **Bespoke data security policy**
- **Regulatory-aligned security measures**
- **Mitigation strategies for internal/external threats**
- **Strong access controls (encryption, authentication)**
- **Incident response plan for breach management**
- **Security-conscious culture with training and audits.**
